St. Jude Hospital

Office of the President

March 03, 2025

Dear Valued Hospital Supporters,

On behalf of St. Jude Hospital, I would like to extend my sincerest gratitude for your unwavering commitment to our mission of providing exceptional healthcare to our community. Your generosity and support are the lifeblood of our endeavors, enabling us to continuously improve and expand our services.

Today, I'd like to share an update on a program that holds immense significance: our organ donation initiative. We are deeply committed to maximizing the gift of life, and I am proud to report that St. Jude Hospital has seen a 60% increase in registered organ donors over the past year. This achievement is a testament to the compassionate work of our dedicated staff and the growing awareness within our community.

However, we recognize that challenges remain. The demand for organs continues to outpace supply, and we are actively working to bridge this gap. We are exploring partnerships with Organ Donors United to enhance our outreach and education efforts. Additionally, we are investing in medical studies for alternative methods to organ donation to ensure the highest quality of care for both donors and recipients.

Looking ahead, we are focused on several key initiatives. We are developing a website for organ donor information to improve access to care for all. We are also committed to enhancing our research capabilities, with a focus on organ donation alternatives.

Furthermore, we are investing in our infrastructure to create a more modern and patient-centered environment.

Sincerely,

Lisa M. Coffner

CEO/CFO

St. Jude Hospital

Statement of Changes in Equity

Well, it wouldn't be an annual report without a lot of numbers, right? This section is the place for all those financial tables.

To get started with a table that looks just like the sample here, on the Insert tab, tap Table.

DESCRIPTION	REVENUE	EXPENSES	EARNINGS
Donations from Gala	\$62,080.00	\$10,111.00	\$51,969.00
Online Donations	\$40,210.00	\$500.00	\$39,710.00
Other Events (Donations)	\$101,990.00	\$8,060.00	\$93,930.00
Government Grant	\$1,000,000.00	\$0.00	\$1,000,000.00
	\$1,204,280.00	\$18,671.00	\$1,185,609.00

A Fictional History: St. Jude's Expanded Mission

While the core mission of St. Jude Children's Research Hospital remains rooted in the vision of Danny Thomas, let's explore a fictional expansion of its role:

- The Rise of the Organ Donation Center (1980s-1990s):
 - As advancements in transplant technology progressed, St. Jude established a dedicated Organ Donation Center.
 - Recognizing the unique ethical considerations surrounding pediatric organ donation, St. Jude became a leader in developing protocols that prioritized the well-being of both donors and recipients.
 - St. Jude played a significant role in advocating for national policies that addressed the specific needs of children awaiting organ transplants.
 - The hospital began to gather a large amount of data on organ donation with children and began to publish many peer reviewed papers on the subject.
- Modern Era (2000s-Present):
 - St. Jude's Organ Donation Center has become a hub for research and innovation, focusing on:
 - Minimizing organ rejection in pediatric patients.
 - Expanding the pool of available organs through advanced preservation techniques.
 - Developing non-invasive methods for assessing organ health.
 - Improving the quality of life of child transplant recipients.
 - St. Jude has also become a leader in education, creating programs that help families navigate the complex decisions surrounding organ donation.
 - St. Jude became a leader in the use of new technologies, such as 3d printed organs, and the use of genetic modification of organs, to increase the number of organs available for children.

Key Successes of St. Jude Hospital in 2024

St. Jude Hospital, nestled amidst the bustling city, has consistently demonstrated its commitment to providing exceptional pediatric care. Over the past year, several key successes have solidified its position as a leading children's hospital:

- **Breakthrough Research in Childhood Diabetes:**
 - St. Jude's Hospital research team made a significant breakthrough in developing a novel gene therapy approach for type 1 diabetes. This promising treatment has shown remarkable results in preclinical trials, offering hope for a potential cure.
- **Community Outreach and Education Programs:**
 - Cedarwood launched several successful community outreach programs focused on promoting children's health and well-being. These initiatives included school-based health screenings, nutrition workshops, and mental health awareness campaigns.
- **The 7th Annual "Hearts of Hope" Organ Donation Gala:**
 - This year's "Hearts of Hope" Organ Donation Gala shattered all previous fundraising records, raising over \$2 million for St. Jude's Hospital transplant program.
 - The gala featured the inspiring story of young Leo, a transplant recipient, whose journey touched the hearts of attendees.
 - The event also facilitated a significant increase in registered organ donors, thanks to on-site registration and educational booths.
 - The Gala also highlighted the new organ preservation techniques that the hospital had started to use, that increased the viability of donated organs.
 - The Gala also highlighted the increase in community awareness of the need for child organ donors.

St. Jude Children's Research Hospital Goals:

- **Core Mission:**
 - To cure childhood cancer and other catastrophic diseases through research and treatment.
 - To advance cures, and means of prevention, for pediatric catastrophic diseases through research and treatment.
 - To provide world-class patient care and support to children and their families, regardless of their ability to pay.
- **Research and Innovation:**
 - To remain at the forefront of pediatric medical research, driving advancements in the understanding and treatment of childhood diseases.
 - To foster a collaborative research environment that encourages innovation and the rapid translation of discoveries into clinical practice.
- **Community and Awareness:**
 - To increase public awareness of childhood cancer and other catastrophic diseases.
 - To increase awareness of the importance of organ donation.
- **Organ Donation Goal:**
 - To achieve a 10-year organ donation signup goal of 20,000 people.
